* Drill intercepts are based on a 0.5 g/t Au cut-off.

* Intercepts above 3 g/t Au, drillhole lengths above 10 meters and included intervals are labeled and highlighted in yellow. i = includes.

* New drillholes are highlighted in yellow. New intercepts are highlighted in red.

* Assay results are as reported; some results may have changed due to screen assays or have been averaged with check assays from the second lab. Please see Table 1 for updated assay results.
